

ADANAC VALVE SPECIALITIES LIMITED

As a result of annual audits carried out on ADANAC VALVE SPECIALITIES LIMITED production facilities, FLOWSERVE FLOW CONTROL can confirm that suitable competence has been demonstrated by ADANAC VALVE SPECIALITIES LIMITED, in the modification of Worcester Valve products, as detailed below.

Steam Jackets:

Manufacture, fabrication and test of steam jackets to Worcester flanged and three piece valve bodies. All steam jackets are pressure tested to 1.5 x pressure rating at ADANAC VALVE SPECIALITIES LIMITED prior to the final valve assembly and test at FLOWSERVE FLOW CONTROL.

Cryogenic Stem Extensions:

Manufacture, fabrication and test of cryogenic extension stems to suit flanged, multiway and 3-piece Worcester valves. All extensions are pressure tested and welds radiographed by ADANAC VALVE SPECIALITIES LIMITED to FLOWSERVE FLOW CONTROL requirements prior to final assembly and test at FLOWSERVE FLOW CONTROL

All products comply with the requirements of FLOWSERVE FLOW CONTROL and to our knowledge all installed product is working satisfactorily.
